CREATE NODE-RED SERVICE

The screenshot displays the Node-RED web interface within a browser. The browser's address bar indicates the URL: `node-red-kujiz-2022-11-04.au-syd.mybluemix.net/red/#flow/7ff62b77b24f5a20`. The Node-RED interface shows a flow named "Flow 1" with two nodes: "Hello Node-RED!" and "msg.payload". A status bar at the top right of the interface displays the message: "Successfully injected: Hello Node-RED!". On the right side, the "debug" console shows a log entry: "11/4/2022, 3:25:12 PM node: f2f2649a.0d0d98 msg.payload: string[15] \"Hello Node-RED!\"". The left sidebar shows node categories like "common" and "function". The Windows taskbar at the bottom shows the date as 04-Nov-22 and time as 3:25 PM.
